MODIFIER TRICK CHEAT SHEET

In Dave Mirra Freestyle BMX you can actually create new tricks on the fly by mixing tricks together with other tricks. You can mix Big Air tricks with Modifier tricks, Big Air with Big Air and Modifier with Modifier. You can literally mix and match almost anything and make up completely new tricks. There are more than 1,300 different tricks, not including combos. The Modifier is so powerful, you can create almost anything, including tricks even the pros haven't dreamed of!

EXAMPLE 1: BIG AIR + MODIFIER

SUPERMAN via ○ + ○ followed up immediately with a **NO HANDER** ○ + ○ creates a **SUPERMAN NO HANDER**. Continue to hold the ○ BUTTON and you will hold the trick in the air.

Tip: You can even do a **BACKFLIP NOTHING**, if you're quick enough.
See **NOTHING** below.

EXAMPLE 2: MODIFIER + MODIFIER

A **NOTHING** (○ ○ + ○) is the combination of a **NO HANDER** (○ + ○) and **NO FOOTER** (○ + ○).

EXAMPLE 3: BIG AIR + BIG AIR

A **CANDYBAR BACKFLIP** (○, ○ + ○) is the combination of a **CANDYBAR** (○ + ○) and **BACKFLIP** (○ + ○).

Experimentation is the key. The more you improvise, the higher the score. Even more tricks (Double Backflips, Frontflips, Double Tailwhips, etc.) can be done by double pressing ○○ or ○○ or ○○ or ○○ or ○○ or ○○ or ○○ or ○○ or left - right or right - left, using either ○ or ○ + a direction.

PLEASE NOTE: You can actually pull off a trick next to a wall by doing a Footplant or Walltap. Example: press the ⊗ BUTTON + ○ to do a Fast Plant, kick off the wall into another trick, then land in a Manual.

GETTING STARTED

Once you choose a game mode, it's time to make your selections for that mode. In Session, Free Ride and 2-Player modes, you select from the available riders, bikes, styles and levels. More are unlocked as you progress through the Proquest portion of the game. In Proquest, you ride on the levels in the order presented, and you have to earn the better bikes and styles. Press **LEFT** or **RIGHT DIRECTIONAL BUTTONS** to cycle through available selections. Press the **X BUTTON** to select. Once you make a selection, the highlight automatically goes to the next category. Press the **Y BUTTON** to cancel a selection and backup to a previous category.

RIDER SELECT

Select any of the top BMX riders to control. To the right of each rider portrait is his ranking in five vital BMX skill categories. The more arrows, the better.

AIR: Determines jumping power and gravity-defying ability.

SPEED: Determines maximum top speed and acceleration (speed added per pedal).

SPINS: Determines base rotation speed, allowing for faster, more controllable spins and flips.

BALANCE: Determines ease of balance to hold grinds or stalls.

OVERALL: Determines the rider's overall rating considering the average of the attributes.

BIKE SELECT

Bikes are rated in five performance categories. The bikes add on to a rider's attributes (as seen by the different color), boosting his performance in each category.

AIR: Determines jumping power and gravity-defying ability.

SPEED: Determines maximum top speed and acceleration (speed added per pedal).

SPINS: Determines base rotation speed, allowing for faster, more controllable spins.

BALANCE: Determines how long a rider can hold grinds or stalls without balancing.

OVERALL: Determines the bike's overall rating considering the average of the attributes.

You begin with a selection of default bikes. They're enough to get you started, but you'll want to earn the bike each rider prefers by completing the required level objectives. You earn a bike upgrade for completing various tasks throughout the game.

STYLE SELECT

Choose from five pre-set style configurations. Again, you start off pretty plain, but once you attract sponsors, you'll be dressing for excess success, and wind up clad in a stylish competition jersey.

LEVEL SELECT

There are 12 levels, including dirt, street and vert locales.

The first six levels offer different challenges and trick objectives. At these levels, you're trying to prove you have what it takes for the Pro Tour. Unlock bike upgrades and other goodies by meeting all the Pro and Hardcore objectives for each level. Once you earn a better bike, revisit previous levels to reach areas and earn scores you couldn't manage with your default bike. The last 6 levels are competition-based levels. Compete against the best of the best.

OBJECTIVE-BASED LEVELS

GREENVILLE: (Vert, Dirt, Street) Begin by learning the basics down in Greenville, NC.
WOODWARD: (Vert, Dirt, Street) Come to the famed Pennsylvania camp to hone your skills and win a sponsor.

COMPETITION-BASED LEVELS

PROTOUR: (Vert, Dirt, Street) The first leg on the way to the tournament.
ACCLAIM MAX GAMES: (Vert, Dirt, Street) Tournament style areas that are plenty tough.

LEVEL OBJECTIVES

The first six levels, based on Greenville and Woodward, are objective-based training levels. You'll see on-screen prompts that tell you what you need to accomplish before the timer runs out. Don't worry if you don't meet all the objectives in one run. Once you get certain objectives under your belt, the game will remember them, and all you have to do is finish the rest of the objectives in your next run(s). You begin each level as an Amateur. Once you've met the amateur objectives on any particular level, you can go on to the Pro objectives on the same level (another run), or try to meet the Amateur objectives on a different track (level select). You must meet all the Amateur objectives to face all the Pro challenges, and must master all the Pro challenges to go on from Greenville to Woodward. Complete Pro and Hardcore objectives to earn new bikes, gear and sponsors (you can complete the game without finishing all the Hardcore objectives).

GAME MODES

PROQUEST

Proquest is a career mode, for those who want to go for the whole enchilada. At the start of Proquest play you're a beginner, just starting out with a default bike, a helmet and more attitude than skill. You've got a lot to learn. Take your time mastering the basics in Greenville, then move up to some serious scrutiny at Woodward Camp. If you have what it takes, you'll attract sponsors and go on to the Pro Tour. Competition is fierce at this level, so expect to be challenged. If you manage to complete all three levels of the Pro Tour, you'll really be sweating when you enter the Acclaim Max Games. You can keep track of each rider's individual progression through Proquest at the rider selection screen. Each level is represented by boxes which will fill either Bronze, Silver, or Gold for the completion of the Amateur, Pro, or Hardcore objectives, respectively.

SCORING: In the last 6 levels, you earn points based on the difficulty and imagination of the tricks performed. The following levels are judged pro competitions where discerning judges rate your performance based on established BMX criteria. The judges are tough, so only your very best will be good enough!

SESSION

In a Session, the timer is ticking and you're free to ride hard on any available level, with no objectives to be met. Total score and measurements are displayed, so any level records can be broken. You won't earn new bikes, sponsors, outfits, cheat codes or levels in Session; this one's just for the joy of the ride!

FREE RIDE

Free Ride gives you a chance to learn a level without worrying about the clock, the score or anything else. No measurements are taken, and no level records can be broken. There's no pressure, but no rewards to earn. Have fun finding your way around and discovering your favorite trick spots.

2-PLAYER

In a 2-Player game, each player takes turns competing in a host of challenges. Player 1 goes first; player 2 then tries to top that performance. Try your hand at a round of B-M-X (the second player has to match the first rider's moves), see who can nail the highest Walltap, and many more. Highlight a 2-Player game mode and press the **X** BUTTON to view the game objective. Then get ready to show your bud that you just can't be beat!

THE GAME SCREEN

CONTROL HINT: On screen text gives you control tips.

OBJECTIVES: On screen text tells you what you need to do to ace the course.

TIMER: Each level is timed. You must complete your objectives or beat your competition in the time allotted for that level.

TRICK SCORE: Each time you perform a trick, you get instant on-screen feedback.

RESULTS SCREEN

At the end of each run, a display comes up showing your score, the overall best score to date and these options:

ANOTHER RUN: Resume play on the same course.

SAVE: Save your progress.

VIEW REPLAY: View the previous game from a variety of angles. You can even take temporary snapshots/freeze frames.

REPLAY CONTROLS:

- ⊗ **BUTTON** Changes camera view.
- Ⓜ **BUTTON** Freezes camera and action to view tricks in all their glory.
- Ⓐ **BUTTON** Resets the replay.
- Ⓢ **BUTTON** Circles camera around the rider.

VIEW RECORDS: View the top 9 records for the level you're riding.

EXIT: Quit the current game and return to the Main Menu.

PAUSING THE GAME

Press the **START BUTTON** at any time to pause the game and bring up the Pause Menu. You'll have these choices.

CONTINUE: Return to your run where you paused the game.
